

Instructions

- **NO** tub baths, pool activity, hot tubbing, or getting into a jacuzzi. No soaking is permitted.
- You may take a shower in 48 hours.
- The bandage may be removed in 2 days. If it becomes wet/soiled prior to this, remove the wet bandage and replace with a new bandage.
- It is normal to have bruising, a “pulling” discomfort, or cramping at the site of the treated area. This can occur up to 5-7 days after the procedure.

Activity

- When sitting or at rest, keep the leg elevated.
- Refrain from strenuous exercise for 5 days post procedure.

Instructions due to Conscious Sedation:

Over the next 24 hours, do not

- Participate in any activities where you could become injured.
- Make important decisions or sign legal documents.
- Drink alcohol, take sleeping pills, or medications that cause drowsiness.

Notify your doctor to report any of the following:

- Fever and/or chills
- Redness, swelling, warmth, bleeding or other drainage from procedure site
- Increased or continued pain from the procedure site

Go to closest emergency room to seek emergency medical care.
