

Post Tunneled Line Removal Discharge Instructions

Instructions

- You **must** remain in an upright position until bedtime.
- You may take a nap later today by sitting up in a recliner type chair.
- You may shower in 24 hours.

Notify your doctor to report any of the following within the next 48 hours:

- Fever and/or chills
- Nausea/Vomiting
- Insertion site becomes red, warm to touch or if drainage from site occurs

Should bleeding occur at site of catheter insertion, put pressure above the site where the catheter enters the skin.

If bleeding persists, go to the nearest Emergency Department.

If you require emergency medical care go the closest Emergency Room.
