

Aspiration Discharge Instructions

Instructions

- You may remove the band-aid or dressing from the biopsy site in 24 hours. Leave open to the air.
- You may shower in 24 hours.
- You may have minimal pain or discomfort at the site. You can take acetaminophen (Tylenol), as indicated by the instructions. You may also apply a cold compress to the area as needed.
- If you experience significant pain, redness, drainage, bleeding, irritation, or if you have a fever above 101 degrees Fahrenheit, contact your primary care physician or seek medical attention.
- If your physician ordered lab testing, results will take 3 -5 business days and get sent to the ordering physician.
- Increase daily activities as tolerated.

Amount of fluid removed _____ ml

If you are experiencing a medical emergency, please go to the nearest emergency room.
